Course Description:

This course continues the study of composition and formal processes in drawing and painting. This class is a transitional step that take the student from assignment based art to art that is based on the student's views as artists. They are learning how to work independently and research their ideas and connect them to the criteria of the assignments. The elements of art and the principles of design will be integrated into an aesthetic expression and convey formal techniques. Students will use such media as graphite, ink, pastel, acrylic and mixed media.

This class curriculum is based on the Florida Sunshine State Standards, grades 9-12 and AP studio Art standards. This is a portfolio building class. Students will produce a wide variety of works designed to show their maximum potential and range.
